TEACHING AND EVALUATION PLAN

Name of the teacher: Dr. Mahadik B. B. Semester: I							Year: 2018-19			
Paper I Taxonomy of Angiosperms And Plant Ecology							S.Y.B.Sc.			
Part I : Teaching Plan							Part II : Evaluation of Plan			
1	2	3	4	5	6	7	8	9	10	
Sr. No.	Month	Week	No. of working days	No. of periods available	Topics to be taught	No. of periods engaged	Topics taught	Deviation in periods	Remarks	
	July 2018	2 & 4	11	11	Introduction to Angiosperms Taxonomy 2 Systems of classification Comparative account of various systems of classification Artificial system- Carl Linnaeus Natural system- Bentham and Hooker Phylogenetic system- Engler and Prantl APG system- A brief review	7	Introduction to Angiosperms Taxonomy 2 Systems of classification Comparative account of various systems of classification Artificial system- Carl Linnaeus Natural system- Bentham and Hooker Phylogenetic system- Engler and Prantl APG system- A brief review	Nil		
2	August 2018	1 & 2	11	8	Study of Plant Families Annonaceae, Brassicaceae, Myrtaceae, Rubiaceae, Solanaceae Apocynaceae, Nyctaginaceae and Amaryllidaceae	8	Study of Plant Families Annonaceae, Brassicaceae, Myrtaceae, Rubiaceae, Solanaceae Apocynaceae, Nyctaginaceae and Amaryllidaceae	1	Extra lesson was conducted	
3	Sept 2018	1 & 2	12	5	Botanical Nomenclature	5	Botanical Nomenclature	Nil		
4	Sept 2018	3 & 4	12	6	Introduction to ecology Definition, concept, scope, Methods of vegetation sampling	6	Introduction to ecology Definition, concept, scope, Methods of vegetation sampling			

5	Oct 2018	1 & 2	12	4	Ecological grouping of the plants	4	Ecological grouping of the plants	Nil

Year: 2018-2019

Name of the teacher: Suryawanshi A.V.

Class: S.Y.B.

Semester: I

Paper: II

Subject: Plant Physiology
Sc

Part I: Teaching Plan					Part II: Evaluation of Plan				
1	2	3	4	5	6	7	8	9	10
Sr. No.	Month	Week	No. of working days	No. of periods available	Topics to be taught	No. of periods engaged	Topics taught	Deviation in periods	Remarks
					Introduction to Plant Physiology 1. Introduction and Scope 2. Applications of plant physiology Absorption of water 1. Role of water in plants 2. Mechanisms of water absorption with respect to crop plants 3. Factors affecting rate of water absorption Ascent of sap 1. Introduction and definition	6	Introduction to Plant Physiology 1. Introduction and Scope 2. Applications of plant physiology Absorption of water 1. Role of water in plants 2. Mechanisms of water absorption with respect to crop plants 3. Factors affecting rate of water absorption Ascent of sap 1. Introduction and definition		
1	Dec 2018	3 & 4	9	6	2. Transpiration pull or cohesion-tension theory, evidences and objections 3. Factors affecting ascent of sap	6	2. Transpiration pull or cohesion-tension theory, evidences and objections 3. Factors affecting ascent of sap	Nil	--
2	Dec 2018	1 & 2	12	6	Transpiration 1 Definition, Types of transpiration - cuticular, lenticular and stomatal 2 Structure of stomata, Mechanism		Transpiration 1 Definition, Types of transpiration - cuticular, lenticular and stomatal 2 Structure of stomata, Mechanism	Nil	--

					<p>of opening and closing of stomata – Steward's hypothesis, 3. Active K⁺ transport mechanism 4. Factors affecting the rate of transpiration 5. Nitrogen metabolism 1. Introduction and role of nitrogen in plants 2. Nitrogen fixation by <i>Rhizobium</i> and BGA 3. Symbiotic nitrogen fixation, nitrogenase enzyme- structure and function</p>		<p>of opening and closing of stomata – Steward's hypothesis, 3. Active K⁺ transport mechanism 4. Factors affecting the rate of transpiration 5. Nitrogen metabolism 7L 1. Introduction and role of nitrogen in plants 2. Nitrogen fixation by <i>Rhizobium</i> and BGA 3. Symbiotic nitrogen fixation, nitrogenase enzyme- structure and function</p>		
					<p>4. Non-symbiotic nitrogen fixation 5. Importance and production technique of BGA 6. Denitrification, ammonification and nitrification 7. Reductive amination and transamination</p> <p>6. Seed dormancy and germination 1. Definition, types of seed dormancy and germination 2. Methods to break seed dormancy</p>	06	<p>Non-Symbiotic nitrogen fixation 5. Importance and production technique of BGA 6. Denitrification, ammonification and nitrification 7. Reductive amination and transamination</p> <p>Seed dormancy and germination 1. Definition, types of seed dormancy and germination 2. Methods to break seed dormancy</p>	1	Extra lecture was conducted on Sunday
3	January 2019	3 & 4	11	6					
					<p>Metabolic changes during seed germination 4. Role of phytohormones to improve seed germination & Vigor</p>	6	<p>3. Metabolic changes during seed germination 4. Role of phytohormones to improve seed germination & Vigor Index</p>	Nil	Nil
4	January 2019	1 & 2	4	6					

						Index		
						Metabolic changes during seed germination 4. Role of phytohormones to improve seed germination & Vigor Index Physiology of flowering 1. Photoperiodism – Concept, definition, short day plants, long day plants and day neutral plants. 2. Phytochrome theory, role of phytohormones in induction and inhibition of flowering 3. Applications of photoperiodism 4. Vernalization–concept and definition,	6	Physiology of flowering 1. Photoperiodism – Concept, definition, short day plants, long day plants and day neutral plants. 2. Phytochrome theory, role of phytohormones in induction and inhibition of flowering 3. Applications of photoperiodism 4. Vernalization–concept and definition, mechanism of vernalisation, applications of vernalisation and devernalization

Semester II

Paper II : Plant Biotechnology

Year : 2018-2019

Part I : Teaching Plan					Part II : Evaluation of Plan				
1	2	3	4	5	6	7	8	9	10
Sr. No.	Month	Week	No. of working days	No. of periods available	Topics to be taught	No. of periods engaged	Topics taught	Deviation in periods	Remarks
					Introduction to Plant Biotechnology 1. History and definition 2. Scope and importance of plant biotechnology 3. Current status of biotechnology in India Structure and function of xylem, phloem and cambium Plant Tissue Culture 1 Concept of plant tissue culture and cellular totipotency 2 Basic techniques: Types of culture		Introduction to Plant Biotechnology 1. History and definition 2. Scope and importance of plant biotechnology 3: Current status of biotechnology in India. Structure and function of xylem, phloem and cambium Plant Tissue Culture 1 Concept of plant tissue culture and cellular totipotency 2 Basic techniques: Types of culture		
1	Dec 2018	3 & 4	11	5		5		Nil	

					<p>3. Media preparation, sterilization, inoculation & Incubation</p> <p>4. Hardening and Applications with reference to: Micropropagation</p> <p>5. Somaclonal variation & Haploid production</p> <p>6. Protoplast fusion & Somatic hybrids</p> <p>7. Embryo rescue & Production of secondary metabolites</p> <p>8. Commercial Plant Tissue culture laboratories in Maharashtra and India.</p>			
2	Dec 2018	1 & 2	11	6		7	1	Extra lecture was conducted
					<p>Single Cell Protein (SCP)</p> <p>1. Concept and definition</p> <p>2. Importance of proteins in diet</p> <p>3. Production of SCP from <i>Spirulina</i> and Yeast</p> <p>4. Importance & acceptability of SCP</p> <p>Plant Genetic Engineering</p> <p>1. Introduction, concept</p> <p>2. Tools of genetic engineering (restriction enzymes, ligases, plasmid vectors)</p> <p>3. Gene cloning Technique</p> <p>4. Applications of plant genetic engineering: insect pest resistance,</p> <p>5. Abiotic stress tolerance & herbicide resistance</p>			
3	Jan 2019	4	12	9		8	1	Extra Lecture

					Genomics, Proteomics and Bioinformatics 1. Genomics- concept & types, 2. Methods used for whole genome sequencing 3. Proteomics-concept, types 4. Methods used in proteome analysis 5. Bioinformatics-concept, database and its classification, data retrieval tools.				
4	Jan 2019	3 & 4	12	5		5			
					Bioremediation 1. Introduction and concept, Microbial remediation 2. Phytoremediation Biofuel technology 1. Definition, Concept and types of Renewable and nonrenewable energy sources 2. Definition and concept of Biogas, Bioethanol & Biobutanol, 3. Biodiesel & Biohydrogen				
5	Feb 2019	1 & 2	12	5	Renewable and nonrenewable energy sources 2. Definition and concept of	5		1	Extra lecture was conducted
